

TENNIS TOGETHER

Our club's guidelines for keeping you safe.

1

We have created a detailed **safety plan** which you can see displayed at the club and on our website.

2

We have implemented a **contact tracing** process for all members, casual users and coaching clients.

3

We have **sanitised** all communal surfaces and have regular cleaning procedures in place.

4

All shared club and coaching equipment will be **sanitised** before and after use.

5

Play is limited to within a group of **10 people only** (per Gatherings rule). No mixing or mingling with those outside of your group of 10.

6

We are committed to maintaining a 2m distance between each person on court at all times.

7

We have ensured that **club and coaching sessions** are phased to avoid gathering occurring at communal points such as entries and car parks.

8

Coaching staff have adapted the delivery of **coaching programmes** to ensure adherence to government health and safety guidelines.

9

If you or members of your household are unwell, you should **stay home**.
